EXAMINER'S COMMENT/AMENDMENT

In accordance with the filing of the Notice of Appeal and Appeal Brief (Paper Nos. 11 and 12, respectively), claim 24 has been cancelled. In the Advisory action (Paper No. 10) mailed June 27, 1999, upon the filing of a Notice of Appeal and Appeal Brief, the amendment (amendment D; Paper No. 9) would be entered. That amendment cancelled claim 24.

To reiterate for clarity, however:

~~(X)~~ Claim 24 has been cancelled in its entirety.

The following is an examiner's statement of reasons for allowance:

After reconsideration of the Applicants' arguments, the Examiner feels that the invention as claimed in claims 18-23 define over the art of record. More particularly, the art of record fails to fairly teach, show or suggest, alone or in combination, inter alia, a disc snubber affixed to the rigid actuator arm (a term of art), wherein the disc snubber extends along a portion of the actuator arm at a thickness greater than the width of the actuator arm to limit deflection of the disc. The claimed embodiment is shown in FIGS. 6 and 7. This disc snubber minimizes contact between the rigid actuator arm and the disc. As argued by the Applicant, the rigid actuator arm to which the disc snubber is affixed and along which the snubber extends, is not in any way related to the conventional flexible suspension that extends from the rigid actuator arm.
